2023 World Academicians' Forum on Advanced Science and Technology INVITATION

Dear _____

The world is undergoing transformative changes driven by scientific and technological advancements and the urgent societal need to address critical environmental challenges. To address the urgent societal need, Nanjing University and the Association of British Chinese Professors (ABCP) plan to jointly launch the 2023 World Academicians' Forum on Advanced Science and Technology (WAFAST). The 2023 WAFAST is dedicated to showcasing the latest findings, innovations and trends in industrial digitalization and decarbonisation.

The 2023 WAFAST aims to bring together academicians, leading experts, industry leaders, policymakers, and innovators from around the globe to explore the latest developments, share insights, and discuss strategies for advancing industrial processes through digitalization while reducing carbon emissions.

We are delighted to extend to you a warm invitation to participate in the 2023 WAFAST, which will be held from **November 4-6, 2023 in Suzhou, China.**

Suzhou is one of the most highly developed and prosperous cities in China, and a major economic center and focal point of trade and commerce of the Yangtze River Delta. Known as a land of fish and rice, famous for its silk for long, Suzhou has earned the fame of "the paradise on earth" for all these attributes. It is also ranked among the top 50 major cities in the world by scientific research outputs as tracked by the Nature Index, and home to many world-leading industries.

The 2023 WAFAST will cover a wide range of topics related to industrial digitalization and decarbonisation, including but not limited to:

- Smart Manufacturing and Industry 4.0
- Energy Efficiency and Sustainable Practices
- Digital Technologies for Emissions Reduction
- Circular Economy and Resource Optimization
- Innovations in Clean Energy and Green Technologies
- Policy Frameworks for Industrial Sustainability

We cordially invite you to attend 2023 WAFAST and look forward to welcoming you to **Suzhou, China from November 4-6, 2023** and to fostering meaningful discussions and impactful outcomes at the 2023 WAFAST.

Sincerely,
2023 WAFAST Organising Committee
